POOL CODE SPECIFICATIONS

Select styles and heights of Independence Aluminum Fencing feature a flush bottom rail or “drop rail.” This allows a panel to meet code regulations by increasing the distance between rails while maintaining a desired height. Pool codes not only vary by state, but also by locality. Be sure to check the codes in your area before ordering.

POOL CODE APPROVED

PANEL SPECIFICATIONS

- Fence panel must be at least 48" tall
- Distance from the top of the bottom rail to the top of the next highest rail must be at least 45"
- Spacing between pickets must be less than 4"
- Space from the bottom of the bottom rail or picket should be 2" off the ground

GATE SPECIFICATIONS

- Must have self-closing hinges and self-closing latches
- Need to open out (away from pool area)
- Opening mechanism of the latch must be at least 54" above the ground
- Must not use a cross brace on gates
